Erland Construction Named to ABC's Top-performing U.S. Commercial and Industrial Construction Contractors List

Burlington, Massachusetts –

Erland Construction was ranked 115 on Associated Builders and Contractors' 2019 Top Performers list, which recognized ABC member contractors' achievements in safety, quality, diversity and project excellence ranked by work hours, with special designations identified.

Published as a supplement to Construction Executive magazine, the lists identify the Top 150 Performers, Top 50 Performers with Special Designations and Top 20 Performers by Region.

"ABC Top Performers are leading the way in the merit shop construction industry, where diverse participants are constantly striving to achieve the highest levels of personal and company performance in an environment of fair and open competition," said Michael Bellaman, president and chief executive officer of ABC. "These rankings will help the industry identify contractors like Erland Construction that have achieved world-class safety performance, demonstrated their commitment to their workers and their communities and earned recognition for project excellence and diversity."

To be eligible, Erland Construction demonstrated world-class safety performance by implementing ABC's STEP safety management system, which makes the top-performing contractors up to 680 percent safer than the U.S. Bureau of Labor Statistics industry average, according to the ABC 2019 Safety Performance Report. The Top Performers were ranked by size based on the number of hours worked in 2017, as reported in their 2018 STEP applications.

Additionally, Erland Construction received an Eagle Award from the Massachusetts Chapter of Associated Builders and Contractors (ABC MA) for building the Snyder Center at Phillips Academy in Andover, Mass. ABC's Eagle Award represents the pinnacle of achievement, recognizing Erland for its work on the 98,800-square-foot LEED Platinum Snyder Center. The award signifies the overall excellence in project execution, craftsmanship, safety, and innovation as well as client satisfaction.

Over the past 42 years, Erland Construction has successfully grown into the Northeast's leading open shop construction management and general contracting firm. The Company is headquartered in Burlington, Massachusetts and has specialized expertise for new construction and renovations in major market sectors including commercial, advanced technology/life sciences, academic, senior living, residential, corporate, and hospitality.
