## Erland Foundation Holds Second Annual Golf Tournament for People Helping People & Boys & Girls Club of Woburn

*Burlington, Massachusetts –*

The Erland Foundation held its second annual golf tournament in support of two local charitable organizations. Erland Construction employees and community members dedicated a day on the course at Butter Brook Golf Club in Westford to raise funding for People Helping People in Burlington and the Boys & Girls Club of Woburn.

“Each organization supports the local youth and their families in our surrounding communities – but they can’t do it all alone,” said Chris Landry, Treasurer and Co-Founder of the Erland Foundation. “The Erland Foundation’s ability to increase awareness and educate others is our mission and having a few

charitable events each year allows us to provide some financial assistance to organizations like these two.”

People Helping People, based in Burlington, Mass., is a non-profit, predominantly volunteer support program. Their mission is to establish and sustain a community-wide effort to provide assistance to residents in the town of Burlington who need food, medicine, heat or utilities and to distribute holiday food baskets and gifts for children.

The Boys & Girls Club of Woburn creates strong, healthy relationships, providing a positive, safe and fun environment for youth. Additionally, the Boys & Girls Club builds character, assures that all young people can afford to belong, is building-centered, welcomes boys and girls of all races, religions and ethnic cultures and is guidance-oriented.

“We are committed to making a positive difference in the communities where we work. Having a platform that supports local organizations allows us to fulfill this commitment,” said Landry. “This year’s charities were selected based on our ties to each – with current employees that have been and continue to be part of the Boys & Girls Club of Woburn programs and People Helping People food and clothing drives. Our goal was to extend our appreciation and help these organizations in any way we could.”

In more than 40 years, Erland Construction has successfully grown into the Northeast’s leading open shop construction management and general contracting firm. The Company is headquartered in Burlington, Massachusetts and has specialized expertise for new construction, additions, and renovations in major market sectors including residential, academic, corporate, advanced technology/life sciences, commercial, senior living and hospitality.
